Discussion

1. *Journal of the American Medical Association*, 1997; 277: 1001-1005.

PANDOLFI
~ 100 WHITE

1990

[illegible]

RECEIVED
JUN 10 1964

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

1. The first part of the paper is devoted to the study of the properties of the function $f(x)$ defined by the equation

1970

1971

$\frac{1}{2} \left(\frac{1}{2} + \frac{1}{2} \right) = \frac{1}{2}$

4300 44.1.15

1. The first group of people who are interested in the study of the history of the world are the historians. They are people who study the past and try to understand what happened and why it happened. They use a variety of sources, including books, documents, and artifacts, to reconstruct the past. They also try to understand the people who lived in the past and how they thought and felt. Historians are interested in the past for a variety of reasons. Some are interested in the past because they want to know what happened and why it happened. Others are interested in the past because they want to understand the people who lived in the past and how they thought and felt. Still others are interested in the past because they want to learn from the mistakes of the past and avoid them in the future.

1. The first part of the report is a general introduction to the subject of the study. It discusses the importance of the problem and the objectives of the research. It also mentions the scope of the study and the methods used.

2. The second part of the report is a detailed description of the experimental setup. It includes a list of the equipment used, the procedures followed, and the data collected. It also discusses the results of the experiments and the conclusions drawn from them.

3. The third part of the report is a discussion of the results of the study. It compares the findings with the theoretical predictions and the results of previous studies. It also discusses the limitations of the study and the directions for future research.

4. The fourth part of the report is a conclusion. It summarizes the main findings of the study and the conclusions drawn from them. It also mentions the significance of the results and the implications for the field of study.

5. The fifth part of the report is a list of references. It includes the names of the authors, the titles of the papers, and the names of the journals or books in which they were published. It also includes the names of the institutions where the research was conducted.
